SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549**

**FORM 10-K**

(Mark One)

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended **December 31, 2019**

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission file number: **000-55453**

**ENDONOVO THERAPEUTICS, INC.**

(Exact name of registrant as specified in its charter)

**Delaware**

State or other jurisdiction of  
incorporation or organization

**45-2552528**

(I.R.S. Employer  
Identification No.)

**6320 Canoga Avenue, 15<sup>th</sup> Floor  
Woodland Hills, CA**

(Address of principal executive offices)

**91367**

(Zip Code)

Registrant's telephone number, including area code: **(800) 489-4774**

Securities registered under Section 12(g) of the Act: **None**

Securities registered pursuant to Section 12(b) of the Securities Exchange Act of 1934:

Title of each class	Trading Symbol(s)	Name of principal U.S. market on which traded
<b>Common stock, par value \$0.0001</b>	<b>ENDV</b>	<b>OTCMKTS</b>

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes  No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.

Yes  No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer  Accelerated filer

Non-accelerated filer  Smaller reporting company

(Do not check if a smaller reporting company) Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes  No

The aggregate market value of the voting Common Stock held by non-affiliates, computed by reference to the price at which the voting Common Stock was sold as of the last business day of the Company's most recently completed second fiscal quarter is \$18,419,338.

As of May 1, 2020, the registrant had 8,813,704 shares of its common stock, par value \$0.0001 per share, outstanding.

Documents Incorporated by Reference: None.

## FORWARD-LOOKING STATEMENTS

When used in this Report, the words “may,” “will,” “expect,” “anticipate,” “continue,” “estimate,” “intend,” and similar expressions are intended to identify forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Act”) and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”) regarding events, conditions and financial trends which may affect the Company’s future plans of operations, business strategy, operating results, and financial position. Such statements are not guarantees of future performance and are subject to risks and uncertainties and actual results may differ materially from those included within the forward-looking statements for various reasons, including those identified under “Risk Factors.” Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date made. Except as required under federal securities laws and the rules and regulations of the United States Securities and Exchange Commission, the Company does not undertake, and specifically declines, any obligation to update any of these statements or to publicly announce the results of any revisions to any forward-looking statements after the distribution of this report, whether as a result of new information, future events, changes in assumptions, or otherwise.

This Report contains certain estimates and plans related to us and the industry in which we operate, which assume certain events, trends, and activities will occur and the projected information based on those assumptions. We do not know all of our assumptions are accurate. In particular, we do not know what level of acceptance our strategy will achieve, how many acquisitions we will be able to consummate or finance, or the size thereof. If our assumptions are wrong about any events, trends, or activities, then our estimates for future growth for our business also may be wrong. There can be no assurances any of our estimates as to our business growth will be achieved.

## **PART I**

### **Overview**

Endonovo Therapeutics, Inc. (Endonovo or the “Company”) is an innovative biotechnology company that has developed a bio-electronic approach to regenerative medicine.

The Company develops, manufactures and distributes evolutionary medical devices focused on the rapid healing of wounds and reduction of pain, edema and inflammation on and in the human body. The Company’s non-invasive bioelectric medical devices are designed to target inflammation, cardiovascular diseases, chronic kidney disease, and central nervous system disorders (“CNS” disorders).

Endonovo’s core mission is to transform the field of medicine by developing safe, wearable, non-invasive bioelectric medical devices that deliver the Company’s Electroceutical<sup>®</sup> Therapy. Endonovo’s bioelectric Electroceutical<sup>®</sup> devices harnesses *bioelectricity* to restore key electrochemical processes that initiate anti-inflammatory processes and growth factors in the body necessary for healing to rapidly occur.

### **Corporate History**

Our predecessor company, Hanover Asset Management, Inc. was incorporated in November 2008 in California. For the purpose of reincorporating in Delaware, we merged with a newly incorporated successor company, Hanover Portfolio Acquisitions, Inc., in July 2011 under which we continue to operate.

IP Resources International, Inc. began operations on September 1, 2011 and was formally incorporated on October 17, 2011.

### **Reverse Acquisition**

On March 14, 2012, we entered into a Share Exchange Agreement (“Agreement”) with IPR and certain of its shareholders. Under the Agreement, each participating IPR shareholder exchanged all of their issued and outstanding IPR common shares totaling 33,234,294, free and clear of all liens, and \$155,000 for Company common shares equal to 1.2342 times the number of IPR shares being transferred to the Company for a total of 410 of our shares (410,177 pre-reverse split). The \$155,000 was not paid at closing. The Company recorded the \$155,000 as acquisition payable. IPR agreed to make payments of up to 25% of the proceeds from any private placement or gross profits earned by IPR until the obligation is satisfied. The percentage of the proceeds to be paid is at the sole discretion of IPR’s Chief Executive Officer and the ex-Chief Executive Officer of the Company based on the liquidity of the Company.

As a result of the Agreement, the former shareholders of IPR, immediately post acquisition owned approximately 89% of the Company and its officers and directors constituted the majority of the officers and directors of the Company. Since the shareholders, officers and directors of IPR have control of the Company, the acquisitions constitutes a reverse acquisition, so IPR was the accounting acquirer and we were the accounting acquiree. For legal purposes, we are the legal parent and IPR is the legal subsidiary.

### **Acquisition of Aviva Companies Corporation**

On April 2, 2013, the Company entered into an Acquisition Agreement (the “Acquisition Agreement”) with (i) The Aviva Companies Corporation (“Aviva”) and (ii) all of the shareholders of Aviva (the “Shareholders”) pursuant to which the Company acquired all of the outstanding shares of Aviva in exchange for the issuance of 60 shares of our common stock (60,000 pre-reverse split), par value \$0.0001 per share to the Shareholders (the “Share Exchange”). As a result of the Share Exchange, Aviva became a wholly-owned subsidiary of the Company.

Other than in respect to the transaction, there is no material relationship among Aviva’s stockholders and any of the Company’s affiliates, directors or officers. We are not currently actively pursuing the development of the Aviva Companies Corporation.

### **Acquisition of WeHealAnimals, Inc.**

On November 16, 2013, the Company entered into an Acquisition Agreement (the “Acquisition Agreement”) with (i) WeHealAnimals, Inc. (“WHA”) and (ii) the sole shareholder of WHA (the “Shareholder”) pursuant to which the Company acquired all of the outstanding shares of WHA in exchange for the issuance of 3 shares of our common stock (3,000 shares pre-reverse split), par value \$0.0001 per share and \$96,000 to the Shareholder (the “Share Exchange”). As a result of the Share Exchange, WHA became a wholly-owned subsidiary of the Company and all of the equity of WHA including its and its sole shareholder’s intellectual property became the property of the Company. This obligation was fully paid on December 15, 2015 through the issuance of 350 shares of stock (350,000 pre-reverse split) to Shareholder. WHA is a Nevada corporation with intellectual property in the fields of bio-technology including its biologics and time-varying electromagnetic frequencies with potential applications on people and animals that management believes can be developed to the benefit of the Company and its shareholders. WHA’s sole shareholder was formerly Chairman and Chief Scientist of Regenotech, Inc. Regenotech was acquired by a company that wanted its technology, biomolecules grown in microgravity, for use in cosmetics. WHA’s sole shareholder left Regenotech with exclusive rights to this proprietary square wave form technology and stem cell technologies, including the patents and patent applications relating thereto.

Other than in respect to the transaction, there is no material relationship between WHA’s sole stockholder and any of the Company’s affiliates, directors or officers.

## Acquisition of Rio Grande Assets

On December 22, 2017, we acquired intellectual property and other assets (the “RGN Assets”) from Rio Grande Neurosciences, Inc. (RGN). The price was \$4,500,000 of which we paid \$3,000,000 in cash and delivered a \$1,500,000 secured promissory note due November 30, 2018 and security agreement. Before such note was due, the note was assigned to Eagle Equities, LLC (“Eagle”) its due date was extended to November 30, 2019, and it was made convertible into our common stock at a price related to our common stock’s market price at the time of conversion. The maturity date was then extended to December 31, 2020. The RGN Assets relate to RGN’s PEMF portfolio of intellectual property, including 27 issued patents with foreign patent protection covering the therapeutic use of PEMF as well as the treatment of various central nervous system disorders. We intend to initiate and fund future clinical trials to evaluate the further use of PEMF in the treatment of central nervous system disorders, including traumatic brain injury, post-concussion syndrome, stroke and multiple sclerosis. However, no assurance can be given that we will be successful in these endeavors or that the results of any tests will indicate further development of the RGN Assets.

The PEMF assets acquired include SofPulse®, a portable, disposable PEMF device with a CE Mark and an FDA 510(k) clearance for the treatment of post-surgical pain and edema in addition to medical reimbursement for the treatment of chronic wounds. Endonovo Therapeutics has begun the commercialization of the PEMF assets through marketing and the creation of various sales channels and distribution agreements.

## Present Development Plans

We now are a biotechnology company developing bioelectronic devices and cell therapies for regenerative medicine. And a commercial-stage developer of non-invasive wearable Electroceuticals™ therapeutic devices.

The Company’s current portfolio of commercial and clinical-stage wearable Electroceuticals™ therapeutic devices addresses wound healing, pain, post-surgical pain and edema, cardiovascular disease, chronic kidney disease, and Central Nervous System (CNS) Disorders, including traumatic brain injury (TBI), acute concussions, post-concussion syndrome and multiple sclerosis. The Company’s non-invasive Electroceutical™ therapeutic device, SofPulse®, using pulsed short-wave radiofrequency at 27.12 MHz has been FDA-Cleared and CE Marked for the palliative treatment of soft tissue injuries and post-operative pain and edema, and has CMS National Coverage for the treatment of chronic wounds. The Company’s current portfolio of pre-clinical stage Electroceuticals™ therapeutic devices address chronic kidney disease, liver disease non-alcoholic steatohepatitis (NASH), cardiovascular and peripheral artery disease (PAD), and ischemic stroke. The Company’s non-invasive, wearable Electroceuticals™ therapeutic devices work by restoring key electrochemical processes that initiate anti-inflammatory and growth factor cascades necessary for healing to occur.

These bioelectronics devices are also commonly referred to as “electroceuticals.” These products are part of an emerging field termed “Bioelectronic Medicine,” that seeks to harness electrical signals in nerves and cells to alter the course of diseases and conditions. Whereas our competitors are primarily using implantable electrical nerve stimulators, we are developing devices that are not implantable and use electromagnetic pulses to deliver electrical stimulation to cells and tissues. We are developing these bioelectronic devices for the treatment of inflammatory conditions in tissues and vital organs with a concentration on vascular diseases and ischemia/reperfusion injuries.

## Intellectual Property:

**SofPulse:** We have 29 issued patents with foreign patent protection covering the therapeutic use of tPEMF as well as the treatment of various central nervous system disorders. Additionally to date, we have filed seven patent applications in the U.S. through the U.S. Patent and Trademark Office (USPTO) and four international patent applications in the E.U., China, South Korea and Japan covering our Time-Varying Electromagnetic Field (TVEMF) technology, the production of biomolecules, the creation of an allogeneic mesenchymal stem cell product a treatment for chemical and radiation injuries, production of stem cell secretome and a method of treating tissues and organs using our TVEMF technology. To date, we have been granted one U.S. Patent (U.S. Patent No. 9,410,143) issued on August 9, 2017 covering the production of human biomolecules using our TVEMF technology. **We will continue to seek to strengthen our portfolio of intellectual property by filing additional patents around uses of our core technologies.**

Our business strategy is aimed at building value by positioning each of our technologies and therapies to treat specific diseases that lack effective treatment, post-operative pain and edema, or whose current standard of treatment involves invasive procedures and/or potentially harmful side effects. We anticipate updating and refining the business strategy as new medical and/or clinical advancements are made as a result of extensive research and development. In general, the component functions of the business model are to:

- Commercialize our FDA cleared technology through direct sales, distributors and licensees;
- License our technologies;

- Develop additional medical indications for our medical devices;
- Develop additional non-invasive, medical technologies;
- Conduct pre-clinical and clinical human studies for FDA Approval of our medical devices and cell therapies;
- Acquire subsidiaries under the parent company, Endonovo Therapeutics, to assist in the development and distribution of medical technologies;
- Incrementally invest, market, and refine acquired and developed medical technologies and therapies.

## **Industry Overview**

### ***Bioelectrical Medicine within the Healthcare Industry***

The healthcare industry is one of the world's largest and fastest-growing industries. Consuming over 10 percent of Gross Domestic Product (GDP) of most developed nations, health care can form an enormous part of a country's economy.

As of 2016, 91.1% of residents had health protection in the United States, either through their employer or bought individually. During 2016, healthcare costs reached \$3.3 trillion, or \$10,348 per person. The share of U.S. GDP devoted to healthcare was 17.9% of U.S. Gross Domestic Product (GDP), the largest of any country in the world. Specifically, the cost of pharmaceuticals in the United States is the highest on the planet. It is expected that Healthcare's share of U.S. GDP will continue its upward trend, reaching 20 percent of U.S. GDP by 2025. Globally, by 2040, Healthcare spending is expected to exceed \$18 Trillion annually.

Bio-Electrical Medicine is a \$17.2 Billion sector of the Healthcare Industry growing at more than a 11% CAGR estimated to exceed \$35.5 Billion by 2025, according to Grand View Research. Get me a copy of this Bioelectric medicine is at the forefront of technological revolution in medical sciences. As opposed to the pharmaceutical industry, bioelectric medicine has a different treatment therapy that is based on electrical pulses instead of drugs to trigger the body's recovery capabilities. Bioelectric medicine develops nerve stimulating and sensors activation technologies to regulate biological functions and treat diseases by combining bioengineering, neuroscience, molecular medicines and electronics. These technologies may change the future of therapies for wide range of diseases.

On the basis of type of device, the global Electroceuticals<sup>®</sup>/Bioelectrical Medicine Market is classified into two major classes:

- Implantable Electroceuticals<sup>®</sup> Devices, and,
- Non-Invasive Electroceuticals<sup>®</sup> Devices.

## BioElectric Medicine vs. Drug Therapies

Over the past 15 years, long-acting and extended-release opioids have been used to treat open wounds, post-operative wounds and chronic pain. These opioids are normally administered at high doses and over long treatment durations particularly in the United States, resulting in a drastic increase in the number opioid-tolerant individuals and a prescription opioid abuse epidemic. Endonovo offers an alternative, non-opioid treatment through its Electroceuticals<sup>®</sup> systems: The Company's SofPulse<sup>®</sup> system is a medical device designed to rapidly reduce post-operative swelling/edema, pain and to treat and accelerate the recovery of chronic wounds through the use of tPEMF. Chronic pain therapy via tPEMF works by relieving the underlying cause of pain – inflammation.

Drug therapies remain the standard of care for a broad range of medical conditions, including high blood pressure, chronic pain, autoimmune diseases, and psychiatric disorders. Management believes that bioelectronic medicine has developed as a viable alternative for the treatment of many disorders.

Normally, our nervous systems send signals to our tissues and organs to suppress inflammation, a phenomenon known as the inflammatory reflex. But sometimes, this system does not work properly, with malfunctions resulting in diseases like rheumatoid arthritis and inflammatory bowel disease. Traditionally, doctors have treated these diseases using drugs designed to suppress inflammation, such as infliximab (trade name Remicade) or adalimumab (Humira). But these drugs are expensive. Plus, they don't work for everyone, often come with nasty side effects, and in some rare cases, they can even kill.

### *Current Product Being Sold – SofPulse<sup>®</sup>*

In clinical trials, the SofPulse<sup>®</sup> device has proven to reduce mean pain scores by nearly 300% and inflammation by 275% thereby improving and reducing recovery time. Additionally, active patients have experienced a 2.2 fold reduction in narcotic use. The SofPulse<sup>®</sup> delivers tPEMF to enhance post-surgical recovery, naturally. Since the SofPulse<sup>®</sup> is non-invasive and non-pharmacologic, there are no known side effects and no potential for overdose or dependency AND no effects on healthy tissue.

#### ***How the SofPulse<sup>®</sup> Works***

SofPulse<sup>®</sup> delivers low intensity microcurrents of energy directly to the procedure site, to enhance recovery, by increasing the amount of naturally occurring Vascular Endothelial Growth Factor (VEGF), thereby increasing the physiological process through which new blood vessels form from pre-existing vessels (Angiogenesis). Within hours/days, the Fibroblast Growth Factor (FGF) enhances, thereby increasing the production of Collagen/Granulation (within days) and Transforming Growth Factor (TGF- $\beta$ ) accelerating Remodeling in the body within days/weeks. This device reduces inflammation and speeds/improves the healing process. The natural healing process allows patients to get back to life faster with lowered use of narcotics. A surgeon places and activates SofPulse<sup>®</sup> immediately after a procedure. The SofPulse<sup>®</sup> can be placed over a surgical dressing or clothing and can easily be applied and/or removed in many cases by the patient themselves. The length of time the device is used will vary depending on the type of procedure.

The SofPulse<sup>®</sup> allows patients to get back to an active life faster with less use of narcotics.

- **Immediately Usable and Effective** - Single use patient device applied immediately after surgery.
- **Easy to Use** - SofPulse<sup>®</sup> can easily be applied and or removed, including in many cases by the patient themselves.
- **Automated Dosing** - Device is activated automatically or can be used as needed.
- **Versatile** - The product comes as a single device or dual device to accommodate different surgical procedures.

**Manufacturing**

Our SofPulse® device is manufactured for us by ADM Tronics, Inc. in an FDA approved facility in Northvale, New Jersey.

**Sales & Marketing**

Endonovo's strategy is to establish relationships with third parties (such as well-established sales organizations, distributors and marketing coordinators) that assist us in developing, marketing, selling and implementing our products.

We believe that strategic and technology-based relationships with medical facilities are fundamental to our success. We have forged numerous relationships with medical device distributors to enhance our combined capabilities. This approach enhances our ability to accelerate market penetration, accelerate the pace of our sales growth and solidify relationships.

We have a variety of marketing programs designed to create brand awareness and market recognition for our product offerings and for sales lead generation. Our marketing efforts include attending and presenting at healthcare related conferences, advertising, content development and distribution, public relations, social media publication of technical and informative articles in industry journals and sales training.

In addition, our strategic partners augment our marketing and sales campaigns through seminars, trade shows and joint public relations and advertising campaigns. Our customers and strategic partners provide references and recommendations that we often feature in external marketing activities.

Endonovo also is utilizing Key Opinion Leaders (KOLs) and Scientific Advisory Board Members (SABs) within the medical community to develop a sales channel recommendations to other physicians/surgeons.

**Competition**

The pain management market is intensely competitive, highly fragmented and characterized by rapidly changing technology and drugs. We currently compete with other medical device manufacturers as well as pharmaceutical companies that have developed drugs many which are considered addictive.

**Employees**

The Company has one employee with the recent hiring of the Company's Chief Medical Officer. However, we have retained approximately 10 individuals as independent contractors that are involved in business development and sales, research & development and administrative functions.

**Item 1A. Risk Factors.**

Not applicable because we are a smaller reporting company.

**Item 1B. Unresolved Staff Comments.**

Not applicable because we are a smaller reporting company.

**Item 2. Properties.**

We have two office locations; Woodland Hills, CA and San Jose CA, in serviced office suite on a month to month basis. We believe such offices are adequate for our present needs.

**Item 3. Legal Proceedings.**

We are not party to any material legal proceeding. Due to the nature of our business, we may become active in litigation relating to the defense or assertion of our patent rights or other corporate matters.

**Item 4. Mine Safety Disclosures.**

Not applicable.

**PART II****Item 5. Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.****Market Information**

Our common stock trades on the OTCQB under the symbol “ENDV”. The OTCQB is a quotation service that displays real-time quotes, last-sale prices, and volume information in over-the-counter (“OTC”) equity securities. An OTCQB equity security generally is any equity that is not listed or traded on a national securities exchange. Our stock is thinly traded, and a robust, active trading market may never develop. The market for the Company’s common stock has been limited, volatile, and sporadic.

*Price Range of Common Stock*

The following table shows, for the periods indicated, the high and low closing prices per share of our common stock as reported by the OTCQB quotation service.

	Closing Price	
	High	Low
Year Ended December, 2018		
First Quarter	\$ 61.50	\$ 32.00
Second Quarter	\$ 55.00	\$ 30.70
Third Quarter	\$ 62.00	\$ 20.00
Fourth Quarter	\$ 64.00	\$ 18.92
Year Ended December, 2019		
First Quarter	\$ 39.50	\$ 16.50
Second Quarter	\$ 21.70	\$ 10.00
Third Quarter	\$ 18.66	\$ 6.20
Fourth Quarter	\$ 10.70	\$ 1.30

### **Approximate Number of Equity Security Holders**

As of May 1, 2020, there were approximately 391 stockholders of record. Because shares of our common stock are held by depositaries, brokers and other nominees, the number of beneficial holders of our shares is substantially larger than the number of stockholders of record.

### **Dividends**

Holders of our common stock are entitled to receive dividends if, as and when declared by the Board of Directors out of funds legally available therefore. We have never declared or paid any dividends on our common stock. We intend to retain any future earnings for use in the operation and expansion of our business. Consequently, we do not anticipate paying any cash dividends on our common stock to our stockholders for the foreseeable future.

### **Item 6. Selected Financial Data.**

Not applicable because we are a smaller reporting company.

### **Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.**

*The information and financial data discussed below is derived from the audited financial statements of the Company for its fiscal year ended December 31, 2019. The audited financial statements were prepared and presented in accordance with generally accepted accounting principles in the United States. The information and financial data discussed below is only a summary and should be read in conjunction with the historical financial statements and related notes contained elsewhere in this 10-K. The financial statements contained elsewhere in this 10-K fully represent the Company's financial condition and operations; however, they are not indicative of the Company's future performance. Although management believes that the assumptions made and expectations reflected in the forward-looking statements are reasonable, there is no assurance that the underlying assumptions will, in fact, prove to be correct or that actual results will not be different from expectations expressed in this 10-K.*

### **Cautionary Notice Regarding Forward Looking Statements**

The information contained in Item 2 contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Actual results may materially differ from those projected in the forward-looking statements as a result of certain risks and uncertainties set forth in this report. Although management believes that the assumptions made and expectations reflected in the forward-looking statements are reasonable, there is no assurance that the underlying assumptions will, in fact, prove to be correct or that actual results will not be different from expectations expressed in this report.

This filing contains a number of forward-looking statements which reflect management's current views and expectations with respect to our business, strategies, products, future results and events, and financial performance. All statements made in this filing other than statements of historical fact, including statements addressing operating performance, events, or developments which management expects or anticipates will or may occur in the future, including statements related to distributor channels, volume growth, revenues, profitability, new products, adequacy of funds from operations, statements expressing general optimism about future operating results, and non-historical information, are forward looking statements. In particular, the words "believe," "expect," "intend," "anticipate," "estimate," "may," variations of such words, and similar expressions identify forward-looking statements, but are not the exclusive means of identifying such statements, and their absence does not mean that the statement is not forward-looking. These forward-looking statements are subject to certain risks and uncertainties, including those discussed below. Our actual results, performance or achievements could differ materially from historical results as well as those expressed in, anticipated, or implied by these forward-looking statements. We do not undertake any obligation to revise these forward-looking statements to reflect any future events or circumstances.

Readers should not place undue reliance on these forward-looking statements, which are based on management's current expectations and projections about future events, are not guarantees of future performance, are subject to risks, uncertainties and assumptions (including those described below), and apply only as of the date of this filing. Our actual results, performance or achievements could differ materially from the results expressed in, or implied by, these forward-looking statements. Factors which could cause or contribute to such differences include, but are not limited to, the risks discussed in this Annual Report on Form 10K, in press releases and in other communications to shareholders issued by us from time to time which attempt to advise interested parties of the risks and factors which may affect our business. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

### **Critical Accounting Policies and Estimates**

We prepare our consolidated financial statements in accordance with accounting principles generally accepted in the U.S. (U.S. GAAP). In doing so, we have to make estimates and assumptions that affect our reported amounts of assets, liabilities, revenues, and expenses, as well as related disclosure of contingent assets and liabilities. In some cases, we could reasonably have used different accounting policies and estimates. In some cases, changes in the accounting estimates are reasonably likely to occur from period to period. Accordingly, actual results could differ materially from our estimates. To the extent that there are material differences between these estimates and actual results, our financial condition or results of operations will be affected. We base our estimates on past experience and other assumptions that we believe are reasonable under the circumstances, and we evaluate these estimates on an ongoing basis. We refer to accounting estimates of this type as critical accounting policies and estimates, which we discuss further below.

#### Use of estimates

Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. The significant estimates were made for the fair value of common stock issued for services, with notes payable arrangements, in connection with note extension agreements, and as repayment for outstanding debt, in estimating the useful life used for depreciation and amortization of our long-lived assets, in the valuation of the derivative liability, and the valuation of deferred income tax assets. Actual results and outcomes may differ from management's estimates and assumptions.

#### Net Loss per Share

Basic net loss per share is calculated based on the net loss attributable to common shareholders divided by the weighted average number of shares outstanding for the period excluding any dilutive effects of options, warrants, unvested share awards and convertible securities. Diluted net loss per common share assumes the conversion of all dilutive securities using the if-converted method and assumes the exercise or vesting of other dilutive securities, such as options, common shares issuable under convertible debt, warrants and restricted stock using the treasury stock method when dilutive.

#### Accounts Receivable

The Company uses the specific identification method for recording the provision for doubtful accounts, which was \$0 at December 31, 2019 and 2018. Accounts receivable are written off when all collection attempts have failed.

### Research and Development

Costs relating to the development of new products are expensed as research and development as incurred in accordance with FASB Accounting Standards Codification (“ASC”) 730-10, *Research and Development*. Research and development costs amounted to \$153,126 and \$274,271 for the years ended December 31, 2019 and 2018, respectively, and are included in operating expenses in the consolidated statements of operations.

### **Recently Issued Accounting Pronouncements**

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842), which supersedes existing guidance on accounting for leases in “Leases (Topic 840)” and generally requires all leases to be recognized in the consolidated balance sheet. ASU 2016-02 is effective for annual and interim reporting periods beginning after December 15, 2018; early adoption is permitted. The provisions of ASU 2016-02 are to be applied using a modified retrospective approach. The Company has adopted ASU 2016-02 on January 1, 2019. The adoption of ASU 2016-02 did not have a significant impact on the Company’s consolidated results of operations, financial position and cash flows.

In June 2018, the FASB issued ASU No. 2018-07, Compensation—Stock Compensation (Topic 718): Improvements to Nonemployee Share-Based Payment Accounting, which simplifies several aspects of the accounting for nonemployee share-based payment transactions resulting from expanding the scope of Topic 718, Compensation—Stock Compensation, to include share-based payment transactions for acquiring goods and services from nonemployees. This ASU is effective for public business entities for fiscal years beginning after December 15, 2018, including interim periods within that fiscal year. For all other entities, the amendments are effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020. Early adoption is permitted, but no earlier than an entity’s adoption date of Topic 606. The Company has early adopted ASU 2018-07 and the adoption did not have a significant impact on the Company’s consolidated financial statements.

In August 2018, the FASB issued ASU No. 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework- Changes to the Disclosure Requirements for Fair Value Measurement. The amendments in this Update modify the disclosure requirements on fair value measurements in Topic 820, Fair Value Measurement, based on the concepts in the Concepts Statement, including the consideration of costs and benefits. Effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. The amendments on changes in unrealized gains and losses, the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements, and the narrative description of measurement uncertainty should be applied prospectively for only the most recent interim or annual period presented in the initial fiscal year of adoption. All other amendments should be applied retrospectively to all periods presented upon their effective date. Early adoption is permitted upon issuance of this Update. Any entity is permitted to early adopt any removed or modified disclosures upon issuance of this Update and delay adoption of the additional disclosures until their effective date. The Company has not yet selected a transition method nor has it determined the effect of the standard on its ongoing financial reporting.

The Company has evaluated all the recent accounting pronouncements and determined that there are no other accounting pronouncements that will have a material effect on the Company’s financial statements.

## Results of Operations

### Results of Operations Year Ended December 31, 2019 vs. Year Ended December 31, 2018

	Year Ended December 31,		Favorable (Unfavorable)	%
	2019	2018		
Revenue	\$ 310,164	\$ 83,263	226,901	272.5
Cost of revenue	93,385	12,930	(80,455)	(622.2)
Gross profit	216,779	70,333	146,446	208.2
Operating expenses	4,025,851	4,229,595	203,744	4.8
Loss from operations	(3,809,072)	(4,159,262)	350,190	8.4
Other expense	(13,505,432)	(2,276,577)	(11,228,855)	(493.2)
Net loss	\$ (17,314,504)	\$ (6,435,839)	\$ (10,878,665)	(169.0)

#### Revenue

Revenue of the Company's SofPulse® product during the current year increased by \$226,901 compared to the previous year.

Revenues for our SofPulse® product is typically recognized at the time the product is shipped, at which time the title passes to the customer, and there are no further performance obligations.

In connection with offering products and services provided to the end user by third-party vendors, we review the relationship between us, the vendor and the end user to assess whether revenue should be reported on a gross or net basis. In asserting whether revenue should be reported on a gross or net basis, we consider whether we act as a principal in the transaction and control the goods and services used to fulfill the performance obligation(s) associated with the transaction.

We anticipate that revenue will continue to increase in future periods as the roll out of the SofPulse® product continues.

#### Cost of Revenue

Cost of revenue increased by \$80,455 or 622.2% from the previous year to \$93,385 during the current year compared to \$12,930 during the previous year. Cost of revenue is recognized on those sales recorded as gross for which we are the principal in the transaction as opposed to net sales which reflect no cost of revenue.

It is anticipated that cost of revenue will increase in future periods as the roll out of the SofPulse® product continues.

#### Operating Expenses

Our operating expenses for 2019 were \$4,025,851 compared to \$4,229,595 for 2018. The operating expenses were comprised primarily of consulting and professional fees for the development of our intellectual property, research and development, expenses related to being a public company and depreciation and amortization expenses.

#### Depreciation and Amortization

We incur depreciation and amortization expense for costs related to our assets, including our patents, information technology and software. Our depreciation and amortization was \$650,315 in 2019 compared to \$650,216 in 2018. There were no significant equipment purchases or sales during 2019.

#### Other Expense

Other Expense were \$13,505,432 in 2019 compared to \$2,276,577 in 2018. The increase in other expense during our fiscal year 2019 was primarily the result of changes in our financings and re-valuations to reflect liability accounting for convertible notes issued with variable conversion rates.

Since inception and through December 31, 2019, the Company has raised approximately \$16.1 million in equity and debt transactions. These funds have been used to advance the operations of the Company, build its bio-medical platform, patent work and general corporate development. Our accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern, which contemplates realization of assets and the satisfaction of liabilities in the normal course of business for the twelve-month period following the date of these consolidated financial statements. However, the Company has incurred substantial losses. Our current liabilities exceed our current assets and available cash is not sufficient to fund the expected future operation. The Company is raising additional capital through debt and equity securities in order to continue the funding of its operations. However, there is no assurance that the Company can raise enough funds or generate sufficient revenues to pay its obligations as they become due, which raises substantial doubt about our ability to continue as a going concern. To reduce the risk of not being able to continue as a going concern, management has implemented its business plan to materialize revenues from sales and future license agreements and has also initiated an equity line of credit offering to raise capital through the sale of its common stock and has engaged an Investment Banker to raise additional capital. Although, uncertainty exists as to whether the Company will be able generate enough cash from operations to fund the Company's working capital needs or raise sufficient capital to meet the Company's obligations as they become due, no adjustments have been made to the carrying value of assets or liabilities as a result of this uncertainty. Our cash on hand at December 31, 2019 was \$18,893. This will not be sufficient to fund operations if additional capital is not raised. The Company raised an aggregate of \$1.3 million through the sale of equity and debt securities since December 31, 2019 through the date of this report.

### Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of Regulation S-K, obligations under any guarantee contracts or contingent obligations. We also have no other commitments, other than the costs of being a public company that will increase our operating costs or cash requirements in the future.

### Seasonality

Management does not believe that our current business segment is seasonal to any material extent.

### **Securities Authorized for Issuance under Equity Compensation Plans**

We do not have in effect any compensation plans under which our equity securities are authorized for issuance.

### **Unregistered Sales of Equity Securities**

During the year ended December 31, 2019, we issued the following unregistered equity securities:

Number of Common Shares Issued	Source of Payment	Amount
10,340	Services	\$ 159,850
728,057	Conversion of notes	\$ 7,533,318
753	Lock-up agreements/Note extension	\$ 12,121
17,900	Cash	\$ 168,343
1,091	Issued with notes	\$ 26,545

The above issuances of were exempt from registration pursuant to Section 4(2), and/or Regulation D promulgated under the Securities Act. These securities qualified for exemption under Section 4(2) of the Securities Act since the issuance securities by us did not involve a public offering. The offering was not a “public offering” as defined in Section 4(2) due to the insubstantial number of persons involved in the deal, size of the offering, manner of the offering and number of securities offered. We did not undertake an offering in which we sold a high number of securities to a high number of investors. In addition, these stockholders had the necessary investment intent as required by Section 4(2) since they agreed to and received share certificates bearing a legend stating that such securities are restricted pursuant to Rule 144 of the Securities Act. This restriction ensures that these securities would not be immediately redistributed into the market and therefore not be part of a “public offering.” Based on an analysis of the above factors, we have met the requirements to qualify for exemption under Section 4(2) of the Securities Act for this transaction.

### **Item 7A. Quantitative and Qualitative Disclosures About Market Risk.**

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders  
Endonovo Therapeutics, Inc. and Subsidiaries

**Opinion on the Financial Statements**

We have audited the accompanying consolidated balance sheets of Endonovo Therapeutics, Inc. and Subsidiaries (the Company) as of December 31, 2019 and 2018, and the related statements of operations, stockholders' deficit, and cash flows for each of the years in the two-year period ended December 31, 2019, and the related notes to the consolidated financial statements (collectively referred to as the consolidated financial statements). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2019 and 2018, and the results of its operations and its cash flows for each of the years in the two-year period ended December 31, 2019, in conformity with accounting principles generally accepted in the United States of America.

**Explanatory Paragraph – Going Concern**

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements, the Company has continued to incur significant operating losses and negative cash flows from operations, during the year ended December 31, 2019 and has negative working capital at December 31, 2019. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 1. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

**Basis for Opinion**

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's consolidated financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

*/s/ Rose, Snyder & Jacobs LLP*

We have served as the Company's auditor since 2008.

See accompanying summary of accounting policies and notes to consolidated financial statements.

(\*) The consolidated financial statements have been retroactively restated to reflect the 1,000-for-1-reverse stock split that occurred in December 20, 2019.

**Endonovo Therapeutics, Inc. and Subsidiary**  
**Notes to Consolidated Financial Statements**  
**For the Years Ended December 31, 2019 and 2018**

**Note 1 - Nature of Business and Summary of Significant Accounting Policies**

Endonovo Therapeutics, Inc. (Endonovo or the “Company”) is an innovative biotechnology company that has developed a bio-electronic approach to regenerative medicine. Endonovo is a growth stage company whose stock is publicly traded (OTCQB: ENDV).

The Company develops, manufactures and distributes evolutionary medical devices focused on the rapid healing of wounds and reduction of inflammation on and in the human body. The Company’s non-invasive bioelectric medical devices are designed to target inflammation, cardiovascular diseases, chronic kidney disease, and central nervous system disorders (“CNS” disorders).

Endonovo’s core mission is to transform the field of medicine by developing safe, wearable, non-invasive bioelectric medical devices that deliver the Company’s Electroceutical<sup>®</sup> Therapy. Endonovo’s bioelectric Electroceutical<sup>®</sup> devices harnesses *bioelectricity* to restore key electrochemical processes that initiate anti-inflammatory processes and growth factors in the body necessary for healing to rapidly occur.

On January 22, 2014, Hanover Portfolio Acquisitions, Inc. (the “Company”) received written consents in lieu of a meeting of stockholders from holders of a majority of the shares of Common Stock representing in excess of 50% of the total issued and outstanding voting power of the Company approving an amendment to the Company’s Certificate of Incorporation to change the name of the Company from “Hanover Portfolio Acquisitions, Inc.” to “Endonovo Therapeutics, Inc.” The name change was affected pursuant to a Certificate of Amendment (the “Certificate of Amendment”), filed with the Secretary of State of Delaware on January 24, 2014.

*Basis of Presentation and Principles of Consolidation*

The consolidated financial statements of the Company include the accounts of ETI, IP Resources International, Inc., Aviva Companies Corporation, and WeHealAnimals, Inc. All significant intercompany accounts and transactions are eliminated in consolidation.

*Going Concern*

These accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern, which contemplates realization of assets and the satisfaction of liabilities in the normal course of business for a period following the date of these consolidated financial statements. The Company has recurring net losses, negative cash flows from operations and working capital deficits. The Company has raised approximately \$ 2.4 million in debt and equity financing for the year ended December 31, 2019. The Company is raising additional capital through debt and equity securities in order to continue the funding of its operations. However, there is no assurance that the Company can raise enough funds or generate sufficient revenues to pay its obligations as they become due, which raises substantial doubt about our ability to continue as a going concern. No adjustments have been made to the carrying value of assets or liabilities as a result of this uncertainty. To reduce the risk of not being able to continue as a going concern, management has implemented its business plan to materialize revenues from potential, future, license agreements, has initiated an equity line of credit offering to raise capital through the sale of its common stock, has engaged a broker/dealer to raise additional capital.

**Endonovo Therapeutics, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (continued)**

*Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Critical estimates include the value of shares issued for services, in connection with notes payable agreements, in connection with note extension agreements, and as repayment for outstanding debt, the useful lives of property and equipment, the valuation of the derivative liability, and the valuation of deferred income tax assets. Management uses its historical records and knowledge of its business in making these estimates. Actual results could differ from these estimates.

*Cash and cash equivalents*

The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Financial instruments that potentially subject us to a concentration of credit risk consist of cash and cash equivalents. Cash is deposited with what we believe are highly credited, quality institutions. The deposited cash may exceed Federal Deposit Insurance Corporation ("FDIC") insured limits. At December 31, 2019, the Company does not hold any cash in excess of FDIC limits.

*Accounts Receivable*

The Company uses the specific identification method for recording the provision for doubtful accounts, which was \$0 at December 31, 2019 and 2018. Accounts receivable are written off when all collection attempts have failed.

*Property, plant and equipment*

Property, plant and equipment are stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, which range between five and seven years. Repairs and maintenance are charged to expense as incurred while improvements are capitalized. Upon the sale, retirement or disposal of fixed assets, the accounts are relieved of the cost and the related accumulated depreciation with any gain or loss recorded to the consolidated statements of operations.

*Impairment of Long-lived Assets*

The Company reviews its long-lived assets for impairment whenever events or changes in business circumstances indicate that the carrying amount of assets may not be fully recoverable or that the useful lives of these assets are no longer appropriate. Each impairment test is based on a comparison of the undiscounted future cash flows generated from the asset group to the recorded value of the asset group. If impairment is indicated, the asset is written down to its estimated fair value.

*Equity-Based Compensation*

The Company measures equity-based compensation cost at the grant date based on the fair value of the award and recognizes it as expense, net of forfeitures which are recognized as they occur, over the vesting or service period, as applicable, of the stock award using the straight-line method.

**Endonovo Therapeutics, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (continued)**

The Company measured equity-based compensation using the Black-Scholes option valuation model using the following assumptions:

	For Year Ending December 31,	
	2019	2018
Expected term	4 years	2 - 3 years
Exercise price	\$11.60	\$29.80 - \$47.00
Expected volatility	349.60%	226.00% - 261.00%
Expected dividends	None	None
Risk-free interest rate	2.28%	1.58% - 2.06%
Forfeitures	None	None

*Income Taxes*

The Company records a tax provision for the anticipated tax consequences of its reported results of operations. The provision for income taxes is computed using the asset and liability method, under which deferred tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the financial reporting and tax bases of assets and liabilities, and for operating losses and income tax credit carryforwards. Deferred tax assets and liabilities are measured using the currently enacted tax rates that apply to taxable income in effect for the years in which those tax assets are expected to be realized or settled. The Company records a valuation allowance to reduce deferred tax assets to the amount that is more likely than not to be realized.

The Company has adopted ASC Topic 740, which clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements. ASC Topic 740 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return, and also provides guidance on derecognition of tax benefits, classification on the balance sheet, interest and penalties, accounting in interim periods, disclosure and transition. The Company has determined that the adoption did not result in the recognition of any liability for unrecognized tax benefits and that there are no unrecognized tax benefits that would, if recognized, affect the Company's effective tax rate.

*Net Loss per Share*

Basic net loss per share is calculated based on the net loss attributable to common shareholders divided by the weighted average number of shares outstanding for the period excluding any dilutive effects of options, warrants, unvested share awards and convertible securities. Diluted net loss per common share assumes the conversion of all dilutive securities using the if-converted method and assumes the exercise or vesting of other dilutive securities, such as options, common shares issuable under convertible debt, warrants and restricted stock using the treasury stock method when dilutive.

*Research and Development*

Costs relating to the development of new products are expensed as research and development as incurred in accordance with FASB Accounting Standards Codification ("ASC") 730-10, *Research and Development*. Research and development costs amounted to \$153,126 and \$274,265 for the years ended December 31, 2019 and 2018, respectively, and are included in operating expenses in the consolidated statements of operations.

**Endonovo Therapeutics, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (continued)**

*Fair Value of Financial Instruments*

Accounting guidance on fair value measurements and disclosures defines fair value, establishes a framework for measuring the fair value of assets and liabilities using a hierarchy system, and defines required disclosures. It clarifies that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the market in which the reporting entity transacts business.

The Company's balance sheet contains derivative liability that is recorded at fair value on a recurring basis. The three-level valuation hierarchy for disclosure of fair value is as follows:

Level 1: uses quoted market prices in active markets for identical assets or liabilities.

Level 2: uses observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3: uses unobservable inputs that are not corroborated by market data.

The fair value of the Company's recorded derivative liability is determined based on unobservable inputs that are not corroborated by market data, which require a Level 3 classification. A Black-Sholes option valuation model was used to determine the fair value. The Company records derivative liability on the condensed consolidated balance sheets at fair value with changes in fair value recorded in the condensed consolidated statements of operation.

The following table presents changes in the liabilities with significant unobservable inputs (Level 3) for the years ended December 31, 2019 and 2018:

	Fair Value Measurements at December 31, 2019 Using			Total
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Derivative liability	\$ -	\$ -	\$ 10,599,690	\$ 10,599,690
Total	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 10,599,690</u>	<u>\$ 10,599,690</u>
	Fair Value Measurements at December 31, 2018 Using			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Derivative liability	\$ -	\$ -	\$ 4,426,026	\$ 4,426,026
Total	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 4,426,026</u>	<u>\$ 4,426,026</u>

**Endonovo Therapeutics, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (continued)**

The following table presents changes in the liabilities with significant unobservable inputs (Level 3) for the years ended December 31, 2019 and 2018:

	Derivative Liability
Balance December 31, 2017	5,939,600
Increase in Derivative Liability resulting from Issuance of convertible debt	2,864,161
Decrease in Derivative Liability resulting from Settlements by debt extinguishment	(1,773,752)
Increase in Derivative Liability resulting from Change in estimated fair value	(2,603,983)
Balance December 31, 2018	4,426,026
Increase in Derivative Liability resulting from Issuance of convertible debt	2,645,838
Decrease in Derivative Liability resulting from Settlements by debt extinguishment	(3,960,864)
Increase in Derivative Liability resulting from Change in estimated fair value	7,488,690
Balance December 31, 2019	<u>\$ 10,599,690</u>

*Derivative Liability*

The Company issued Variable Debentures during the years ended December 31, 2019 and 2018, which contained variable conversion rates based on unknown future prices of the Company's common stock. This resulted in a derivative liability. The Company measures the derivative liability using the Black-Scholes option valuation model using the following assumptions:

	For Year Ending December 31,	
	2019	2018
Expected term	1 month-1 year	1 year
Exercise price	\$0.65-\$12.87	\$11.10-\$32.60
Expected volatility	133.5%-166.0%	119.0%-195.0%
Expected dividends	None	None
Risk-free interest rate	1.51%-2.87%	1.79%-2.71%
Forfeitures	None	None

The assumptions used in determining fair value represent management's best estimates, but these estimates involve inherent uncertainties and the application of management's judgment. As a result, if factors change, including changes in the market value of the Company's common stock, managements' assessment or significant fluctuations in the volatility of the trading market for the Company's common stock, the Company's fair value estimates could be materially different in the future.

The Company computes the fair value of the derivative liability at each reporting period and the change in the fair value is recorded as non-cash expense or non-cash income. The key component in the value of the derivative liability is the Company's stock price, which is subject to significant fluctuation and is not under its control, and the assessment of volatility. The resulting effect on net loss is therefore subject to significant fluctuation and will continue to be so until the Company's Variable Debentures, which the convertible feature is associated with, are converted into common stock or paid in full with cash. Assuming all other fair value inputs remain constant, the Company will record non-cash expense when its stock price increases and non-cash income when its stock price decreases.

**Endonovo Therapeutics, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (continued)**

*Preferred Stock*

The Company elects to accrete the difference between the redemption value and carrying value of outstanding preferred stock over the period from the date of issuance to the earliest redemption date using the effective interest method.

*Reverse Split*

In October 2019, the Company's Board of Directors and stockholders approved an amendment to the Company's amended and restated certificate of incorporation to effect a 1,000-for-1 reverse split of the Company's common stock, which was effected on December 20, 2019. The par value of the common stock was not adjusted as a result of the reverse stock split. Accordingly, all common stock, stock options, warrants and related per share amounts as of and for the year ended December 31, 2018 and for the period through December 20, 2019 have been retroactively adjusted to give effect to the reverse split.

*Reclassification*

Certain reclassifications have been made to the 2018 financial statements in order to conform to the 2019 presentation. Such reclassifications have no impact on the Company's financial positions or results of operations.

*Recent Accounting Standard Updates*

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842), which supersedes existing guidance on accounting for leases in "Leases (Topic 840)" and generally requires all leases to be recognized in the consolidated balance sheet. ASU 2016-02 is effective for annual and interim reporting periods beginning after December 15, 2018; early adoption is permitted. The provisions of ASU 2016-02 are to be applied using a modified retrospective approach. The Company has adopted ASU 2016-02 on January 1, 2019. The adoption of ASU 2016-02 did not have a significant impact on the Company's consolidated results of operations, financial position and cash flows.

In June 2018, the FASB issued ASU No. 2018-07, Compensation—Stock Compensation (Topic 718): Improvements to Nonemployee Share-Based Payment Accounting, which simplifies several aspects of the accounting for nonemployee share-based payment transactions resulting from expanding the scope of Topic 718, Compensation—Stock Compensation, to include share-based payment transactions for acquiring goods and services from nonemployees. This ASU is effective for public business entities for fiscal years beginning after December 15, 2018, including interim periods within that fiscal year. For all other entities, the amendments are effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020. Early adoption is permitted, but no earlier than an entity's adoption date of Topic 606. The Company has early adopted ASU 2018-07 and the adoption did not have a significant impact on the Company's consolidated financial statements.

In August 2018, the FASB issued ASU No. 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework- Changes to the Disclosure Requirements for Fair Value Measurement. The amendments in this Update modify the disclosure requirements on fair value measurements in Topic 820, Fair Value Measurement, based on the concepts in the Concepts Statement, including the consideration of costs and benefits. Effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. The amendments on changes in unrealized gains and losses, the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements, and the narrative description of measurement uncertainty should be applied prospectively for only the most recent interim or annual period presented in the initial fiscal year of adoption. All other amendments should be applied retrospectively to all periods presented upon their effective date. Early adoption is permitted upon issuance of this Update. Any entity is permitted to early adopt any removed or modified disclosures upon issuance of this Update and delay adoption of the additional disclosures until their effective date. The Company has not yet selected a transition method nor has it determined the effect of the standard on its ongoing financial reporting.

The Company has evaluated all the recent accounting pronouncements and determined that there are no other accounting pronouncements that will have a material effect on the Company's financial statements.

**Endonovo Therapeutics, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (continued)**

**Note 2 - Revenue Recognition**

***Contracts with Customers***

We have adopted ASC 606, *Revenue from Contracts with Customers* effective January 1, 2018 using the modified retrospective method applied to those contracts which were not substantially completed as of January 1, 2018. These standards provide guidance on recognizing revenue, including a five-step model to determine when revenue recognition is appropriate. The standard requires that an entity recognize revenue to depict the transfer of control of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

We routinely plan on entering into contracts with customers that include general commercial terms and conditions, notification requirements for price increases, shipping terms and in most cases prices for the products and services that we offer. Our performance obligations are established when a customer submits a purchase order notification (in writing, electronically or verbally) for goods and services, and we accept the order. We identify performance obligations as the delivery of the requested product or service in appropriate quantities and to the location specified in the customer's contract and/or purchase order. We generally recognize revenue upon the satisfaction of these criteria when control of the product or service has been transferred to the customer at which time we have an unconditional right to receive payment. Our sales and sale prices are final and our prices are not affected by contingent events that could impact the transaction price.

Revenues for our SofPulse® product is typically recognized at the time the product is shipped, at which time the title passes to the customer, and there are no further performance obligations.

In connection with offering products and services provided to the end user by third-party vendors, we review the relationship between us, the vendor and the end user to assess whether revenue should be reported on a gross or net basis. In asserting whether revenue should be reported on a gross or net basis, we consider whether we act as a principal in the transaction and control the goods and services used to fulfill the performance obligation(s) associated with the transaction.

During the year ended December 31, 2019, we recognized gross revenue of \$310,164 from products we sold as a principal in the transaction.

***Sources of Revenue***

We have identified the following revenues disaggregated by revenue source:

1. Plastic Surgeons
2. Wound Care Facilities
3. Hospitals
4. Other Physicians

**Endonovo Therapeutics, Inc. and Subsidiaries**  
**Notes to Condensed Consolidated Financial Statements (continued)**

As of December 31, 2019, and 2018 the sources of revenue were as follows:

	Year Ended December 31,	
	2019	2018
Distributor- Plastic surgeons, net	\$ -	\$ 17,045
Direct sales- Plastic surgeons, gross	310,164	66,218
Total sources of revenue	\$ 310,164	\$ 83,263

***Warranty***

Our general product warranties do not extend beyond an assurance that the product delivered will be consistent with stated specifications and do not include separate performance obligations.

***Significant Judgments in the Application of the Guidance in ASC 606***

There are no significant judgments associated with the satisfaction of our performance obligations. We generally satisfy performance obligations upon delivery of the product to the customer. This is consistent with the time in which the customer obtains control of the products. Performance obligations are also generally settled quickly after the purchase order acceptance, therefore the value of unsatisfied performance obligations at the end of any reporting period is generally immaterial.

We consider variable consideration in establishing the transaction price. Forms of variable consideration applicable to our arrangements include sales returns, rebates, volume-based bonuses, and prompt pay discounts. We use historical information along with an analysis of the expected value to properly calculate and to consider the need to constrain estimates of variable consideration. Such amounts are included as a reduction to revenue from the sale of products in the periods in which the related revenue is recognized and adjusted in future periods as necessary.

***Practical Expedients***

Our payment terms for sales direct to distributors, End Users, Hospitals and Doctors are substantially less than the one-year collection period that falls within the practical expedient in determination of whether a significant financing component exists.

***Effective Date and Transition Disclosures***

Adoption of the new standards related to revenue recognition did not have a material impact on our consolidated financial statements.

**Endonovo Therapeutics, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (continued)**

**Note 3- Property and Equipment**

The following is a summary of equipment, at cost, less accumulated depreciation at December 31, 2019 and 2018:

	As of December 31,	
	2019	2018
Autos	\$ 64,458	\$ 64,458
Medical equipment	13,969	13,969
Other equipment	11,367	8,774
	89,794	87,201
Less accumulated depreciation	83,879	80,474
	<u>\$ 5,915</u>	<u>\$ 6,727</u>

Depreciation expense for the years ended December 31, 2019 and 2018 was \$3,405 and \$3,306, respectively.

**Note 4 – Patents**

In December 2017, we acquired from RGN a patent portfolio for \$4,500,000. The earliest patent expires in 2024. The following is a summary of patents less accumulated amortization at December 31, 2019 and 2018:

	December 31,	
	2019	2018
Patents	\$ 4,500,000	\$ 4,500,000
Less accumulated amortization	1,293,820	646,910
	<u>\$ 3,206,180</u>	<u>\$ 3,853,090</u>

Amortization expense for the years ended December 31, 2019 and 2018 was \$646,910 respectively.

**Endonovo Therapeutics, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (continued)**

The estimated future amortization expense related to patents as of December 31, 2019 is as follows:

Year Ended December 31.	Amount
2020	\$ 646,910
2021	646,910
2022	646,910
2023	646,910
Thereafter	618,540
Total	\$ 3,206,180

**Note 5 - Notes payable and Long-Term Loan**

*Notes Payable*

In October 2013, the Company initiated a private placement for up to \$500,000 of financing by the issuance of notes payable at a minimum of \$25,000, one unit. The notes bear interest at 10% per annum and were due and payable with accrued interest one year from issuance. Also, the Company agreed to issue 125 shares (125,000 shares pre reverse split) of its common stock for each unit. In July 2014, the Company initiated a private placement for up to \$500,000 of financing by the issuance of notes payable at a minimum of \$25,000, one unit. The notes bear interest at 10% per annum and were due and payable with accrued interest one year from issuance. Also, the Company agreed to issue 50 shares (50,000 shares pre-reverse split) of its common stock for each unit. In October 2014, the Company initiated a private placement for up to \$500,000 of financing by the issuance of notes payable at a minimum of \$25,000, one unit. The notes bear interest at 10% per annum and were due and payable with accrued interest one year from issuance. Also, the Company agreed to issue 50 shares (50,000 shares pre-reverse split) of its common stock for each unit. In August 2015, the Company initiated a private placement for up to \$500,000 of financing by the issuance of notes payable at a minimum of \$25,000, one unit. The notes bear interest at 10% per annum and were due and payable with accrued interest one year from issuance. Also, the Company agreed to issue 100 shares (100,000 shares pre-reverse split) of its common stock for each unit. During the years ended December 31, 2019 and 2018, the Company did not issue notes in connection with these private placements. As of December 31, 2019, and 2018, notes payable outstanding under these private placements are \$624,903 and \$692,403, respectively, all of which are past maturity at December 31, 2019 and 2018.

During the year ended December 31, 2019, the Company issued eight fixed rate promissory notes totaling \$2,192,250 for funding of \$1,995,000 with original terms of two to six months and interest rates of 10% to 12%, default rates of 10% to 24% and for three of the notes, if the notes are not paid at maturity, an additional 2% per month for the next three months. On November 1, 2019, the Company entered into debt modification agreements with two of the notes holders and extend the maturity date to November 1, 2020. Management reviewed the guidance in *ASC 470-60 Troubled Debt Restructurings* and *ASC 470-50 Debt Modifications and Extinguishments* and concluded that the changes to the terms of its debts qualified for debt modification, which did not result in any gain or loss in the Company's statement of operation. As of December 31, 2019, the balance on these notes amounts to \$894,250 and none of the notes is past maturity.

During the year ended December 31, 2019, the Company converted two previous fixed rate notes into variable rate notes in an accumulated amount of \$1,650,000 as a result of the notes not being paid at maturity and, therefore, triggering conditional conversion options to the benefit of the noteholders. The conversion rate is 68% of the Company's common stock based on the terms included in the variable rate notes.

The gross amount of all convertible notes with variable conversion rates outstanding at December 31, 2019 and December 31, 2018, is \$5,090,642, of which \$5,090,642 are past maturity, and \$5,315,795, of which \$2,891,925 were past maturity, respectively.

Notes payable to a related party in the aggregate amount of \$165,000 were outstanding at December 31, 2019. The notes bear interest at 12% per annum. During the year ended December 31, 2019, the Company paid 105,000 principal and \$17,000 interest to this related party. On September 29, 2019, the Company extended the maturity on all outstanding notes to December 31, 2019.

During October 2019, the Company entered into an agreement to receive a license, data delivery and ancillary marketing services in exchange for a note of \$352,500 at 8% annual interest and a conversion rate of the lower of \$9.00 or 82% of the lowest bid price during the five trading days prior to conversion. The note will become effective when the license period and the services start and the data is delivered.

During the year ended December 31, 2018, the Company issued a six-month fixed rate note with an interest rate of 12% for initially \$275,000, subsequently increased to \$300,000, for cash of \$250,000. As of December 31, 2018, the balance on this note was \$100,000. The loan was past maturity as of December 31, 2018. The loan was fully repaid as of December 31, 2019.

During the year ended December 31, 2018, the Company issued two six-month fixed rate notes with annual interest rates of 10% and accumulated principal balances of \$1,650,000 for cash of \$1,500,000. The first note for \$1,100,000 matures on March 26, 2019 and the second note for \$550,000 matured on June 17, 2019. The terms of the notes included additional interest payments of 2% on the fourth, fifth and sixth month anniversaries of the notes and, if not paid at maturity, a conversion to common stock feature at a rate of 68% of the lowest closing bid price during the 15 days previous to conversion.

**Endonovo Therapeutics, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (continued)**

During the years ended December 31, 2018, the Company issued Convertible Debentures (“Variable Debentures”) in amounts of \$2,545,870 for cash of \$836,000 with original terms of 6 to 12 months and interest rates ranging from 10% to 12% which contain variable conversion rates with a discount of 65% of the Company’s common stock based on the terms included in the Variable Debentures. During the year ended December 31, 2018, one variable Debenture was repaid in cash in amount of \$283,000.

Debentures contain prepayment options which enable the Company to prepay the notes for periods of 0-180 days subsequent to issuance at a premium of 125-135%. The Company recorded a derivative liability as a result of the conversion feature. The derivative liability was allocated between a note discount, up to the value of the Variable Debenture, and interest expense for the excess, and the note discount is being amortized over the life of the Variable Debenture. During the years ended December 31, 2019 and 2018, the Company recorded \$0 and \$2,282,707 respectively, in discounts on these Variable Debentures. As of December 31, 2019, and 2018, the Variable Debentures outstanding had balances due of \$5,090,642 and \$5,315,795, respectively. Of these amounts outstanding, \$5,090,642 and \$2,891,925 of the Variable Debentures were past maturity at December 31, 2019 and 2018, respectively.

As of December 31, 2019, the Company had notes payable to related parties amounting to \$165,000. Refer to Note 7– Related Party Transactions.

	As of December 31,	
	2019	2018
Notes payable at beginning of period	\$ 8,158,198	\$ 7,356,144

*Acquisition Payable*

In connection with the Company's acquisition of IPR in 2012, IPR recorded a \$155,000 long-term acquisition payable for costs that were not paid at closing. This payable is non-interest bearing and IPR agreed to make payments up to 25% of the proceeds from any private placement or gross profits earned by IPR until the obligation is satisfied. The percentage of the proceeds to be paid is at the sole discretion of IPR's Chief Executive Officer and the ex-Chief Executive Officer of the Company based on the liquidity of the Company.

*Effective Interest Rate*

During the year ended December 31, 2019 and 2018, the Company's effective interest rate was 95% and 104% respectively.

**Note 6 - Shareholders' Deficit**

*Preferred Stock*

The Company has authorized 5,000,000 shares of preferred stock which have been designated as follows:

	Number of Shares Authorized	Number of Shares Outstanding at December 31, 2019	Par Value	Liquidation Value per Share
Series AA	1,000,000	25,000	\$ 0.0010	-
Preferred Series B	50,000	600	\$ 0.0001	100
Preferred Series C	8,000	1,814	\$ 0.0001	1,000
Preferred Series D	20,000	255	\$ 0.0001	1,000
Undesignated	3,922,000	-	-	-

*Series AA Preferred Shares*

On February 22, 2013, the Board of Directors of the Company authorized an amendment to the Company's Articles of Incorporation, as amended (the "Articles of Incorporation"), in the form of a Certificate of Designation that authorized the issuance of up to one million (1,000,000) shares of a new series of preferred stock, par value \$0.001 per share, designated "Series AA Super Voting Preferred Stock," for which the board of directors established the rights, preferences and limitations thereof.

Each holder of outstanding shares of Series AA Super Voting Preferred Stock shall be entitled to one hundred thousand (100,000) votes for each share of Series AA Super Voting Preferred Stock held on the record date for the determination of stockholders entitled to vote at each meeting of stockholders of the Company. As of December 31, 2019, and 2018, there were and 25,000 shares of Series AA Preferred stock outstanding.

**Endonovo Therapeutics, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (continued)**

*Series B Convertible Preferred Stock*

On February 7, 2017, the Company filed a certificate of designation for 50,000 shares of Series B Convertible Preferred Stock designated as Series B (“Series B”) which are authorized and convertible, at the option of the holder, commencing six months from the date of issuance into common shares and warrants. For each share of Series B, the holder, on conversion, shall receive the stated value divided by 75% of the market price on the date of purchase of Series B and a three-year warrant exercisable into up to a like amount of common shares with an exercise price of 150% of the market price as defined in the Certificate of Designation. Dividends shall be paid only if dividends on the Company’s issued and outstanding Common Stock are paid and the amount paid to the Series B holder will be as though the conversion shares had been issued. The Series B holders have no voting rights. Upon liquidation, the holder of Series B, shall be entitled to receive an amount equal to the stated value, \$100 per share, plus any accrued and unpaid dividends thereon before any distribution is made to Series C Secured Redeemable Preferred Stock or common stockholders. During the year ended December 31, 2018, 1,350 shares of Series B and 4,805 warrant shares have been issued of which 750 Series B shares, respectively, have been converted into 2,941 common shares. There has been no activity during the year ended December 31, 2019. As of December 31, 2019, and 2018, there are 600 shares of Series B outstanding.

*Series C Secured Redeemable Preferred Stock*

On December 22, 2017, the Company filed a certificate of designation for 8,000 shares of Series C Secured Redeemable Preferred Stock (“Series C”). Each share of the C Preferred is entitled to receive a \$20.00 quarterly dividend commencing March 31, 2018 and each quarter thereafter and is to be redeemed for the stated value, \$1,000 per share, plus accrued dividends in cash (i) at the Company’s option, commencing one year from issuance and (ii) mandatorily as of December 31, 2019. The C Preferred does not have any rights to vote with the common stock. Upon liquidation, the holder of Series C, shall be entitled to receive an amount equal to the stated value, \$1,000 per share, plus any accrued and unpaid dividends thereon before any distribution is made to common stockholders but after distributions are made to holders of Series B. Since the C Preferred is mandatorily payable, the obligation has been included in short term liabilities on the consolidated balance sheets as of December 31, 2019. The Company’s obligation to redeem the C Preferred is secured by a security interest in the RGN Assets.

For the years ended December 31, 2019 and 2018, the Company has sold 94 and 1,020 shares of Series C in units comprised of shares of C Preferred and common stock purchase warrants exercisable into up to 960 and 6,457 shares of common stock for consideration of \$94,000 and \$1,020,191. The warrants resulted in a debt discount after amortization of \$776 and \$180,712 at December 31, 2019 and 2018, respectively, and are recorded as a discount to the preferred stock liability on the consolidated balance sheets.

On January 29, 2020, the Company filed the amended and restated certificate of designation for its Series C Secured Redeemable Preferred Stock. The amendment changed the rights of the Series C by (a) removing the requirement to redeem the Series C, (b) removing the obligation to pay dividends on the Series C, (c) Allowing the holders of shares of Series C to convert the stated value of their shares into common stock of the Company at 75% of the closing price of such common stock on the day prior to the conversion.

*Series D Convertible Preferred Stock*

On November 11, 2019, the Company filed a certificate of designation for 20,000 shares of Series D Convertible Preferred Stock designated as Series D (“Series D”), which are authorized and convertible, at the option of the holder, at any time from the date of issuance, into shares of common shares. On or prior to August 1, 2020, for each share of Series D, the holder, on conversion, shall receive a number of common shares equal to 0.01% of the Company’s issued and outstanding shares on conversion date and for conversion on or after August 2, 2020, the holder shall receive conversion shares as though the conversion date was August 1, 2020, with no further adjustments for issuances by the Company of common stock after August 1, 2020, except for stock split or reverse stock splits of the common stock.

The Series D holders have no voting rights. Upon liquidation, the holder of Series D, shall be entitled to receive an amount equal to the stated value, \$1,000 per share, plus any accrued and unpaid dividends thereon before any distribution is made to common stockholders. During the year ended December 31, 2019, 255 shares of Series D have been issued. As of December 31, 2019, there are 255 shares of Series D outstanding.

*Common Stock*

On December 31, 2018, we entered into a non-transferrable Investment Agreement whereby the investor committed to purchase up to \$10,000,000 of our common stock, over the course of 36 months. The aggregate number of shares issuable by us and purchasable by the investor under the Investment Agreement is 81,250. A registration statement for the sale of our common stock related to the Investment Agreement went effective on February 11, 2019.

**Endonovo Therapeutics, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (continued)**

We may draw on the facility from time to time, as and when we determine appropriate in accordance with the terms and conditions of the Investment Agreement. The maximum amount that we are entitled to put in any one notice is the greater of: (i) 200% of the average daily volume (U.S. market only) of the common stock for the three (3) trading days prior to the date of delivery of the applicable put notice, multiplied by the average of the closing prices for such trading days or (ii) \$100,000. The purchase price shall be set at ninety-four percent (94%) of the lowest daily VWAP of our common stock during the Pricing Period. However, if, on any trading day during a Pricing Period, the daily VWAP of the common stock is lower than the floor price specified by us in the put notice, then we will withdraw that portion of the put amount for each such trading day during the Pricing Period, with only the balance of such put amount above the minimum acceptable price being put to the investor. There are put restrictions applied on days between the put notice date and the closing date with respect to that particular put. During such time, we are not entitled to deliver another put notice.

There are circumstances under which we will not be entitled to put shares to the investor, including the following:

- we will not be entitled to put shares to the investor unless there is an effective registration statement under the Securities Act to cover the resale of the shares by the investor;
- we will not be entitled to put shares to the investor unless our common stock continues to be quoted on the OTCQB market, or becomes listed on a national securities exchange;
- we will not be entitled to put shares to the investor to the extent that such shares would cause the investor's beneficial ownership to exceed 4.99% of our outstanding shares; and
- we will not be entitled to put shares to the investor prior to the closing date of the preceding put.

In connection with the preparation of the Investment Agreement and the registration rights agreement, we incurred fees of \$20,000.

In no event will we be obligated to register for resale more than \$10,000,000 in value of shares of common stock, or 81,250 shares.

During the year ended December 31, 2019, the Company issued 17,900 shares of common stock in exchange for \$168,343 cash pursuant to the Investment Agreement.

During the year ended December 31, 2019, the Company issued 728,057 shares of common stock for the conversion of notes and accrued interest in the amount of \$7,533,318

During the year ended December 31, 2019, the Company issued 10,340 shares of common stock with a value of \$159,850 related to services.

During the year ended December 31, 2019, the Company issued 754 shares of common stock valued at \$12,122 related to the extension of outstanding notes and lock-up agreements; 1,091 shares valued at \$26,545 were issued as additional consideration for the issuance of two promissory notes totaling \$336,000.

During the year ended December 31, 2018, the Company issued pursuant to a private placement offering 1,562 shares of common stock and the same number of warrants for cash of \$60,000 and 2,000 shares of common stock for cash of \$25,000. The Company also issued 92,773 shares of common stock for the conversion of notes and accrued interest in the amount of \$3,440,725.

During the year ended December 31, 2018, the Company issued 477 shares of common stock valued at \$17,194 related to the extension of outstanding notes and lock-up agreements; 1,000 shares valued at \$22,200 were issued in connection with a \$550,000 note payable; 2,941 shares were issued on the conversion of Preferred Series B Stock; and 6,183 shares were issued for the cashless exercise of 6,200 warrant shares.

**Endonovo Therapeutics, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (continued)**

The Company had entered into consulting agreements with various consultants for service to be provided to the Company. The agreements stipulated a monthly fee and a certain number of shares that the consultant vests in over the term of the contract. The consultant was issued a prorated number of shares of common stock at the beginning of the contract, which the consultant earned over a three-month period. At the anniversary of each quarter, the consultant was issued a new allotment of common stock during the first 3 years of engagement. In accordance with ASC 505-50 – Equity-Based Payment to Non-Employees, the common stock shares issued to the consultant were valued upon their vesting, with interim estimates of value as appropriate during the vesting period. During the years ended December 31, 2019 and 2018, the Company issued 10,340 shares of common stock with a value of \$159,850 and 7,175 shares of common stock with a value of \$224,785, respectively, related to these consulting agreements.

The Variable Debentures issued by the Company each have a provision requiring the Company to reserve a variable number of shares of common stock for when the holder of the Variable Debenture converts.

*Stock Options*

During the year ended December 31, 2019, the Company granted stock options to the Company's Chief Medical Officer, exercisable into up to 5,280 shares of common stock with an exercise price of from \$11.60 per share, and a weighted average remaining life of 3.38 years. These stock options were valued at \$76,532 using the Black Scholes option pricing model. The stock options will vest in eight equal quarterly installments of 660 shares.

During the year ended December 31, 2018, the Company granted a stock option to independent contractor exercisable into up to 1,350 shares of common stock with an exercise prices ranging from \$29.80 to \$47.00 per share, lives of two to three years, and cashless exercise rights and were valued at \$29,246 using the Black Scholes option pricing model. The stock options vest over four to twelve months. Share-based compensation expense for the years ended December 31, 2019, and 2018, totaled \$31,012 and \$15,459, respectively. At December 31, 2019, the total unrecognized deferred share-based compensation expected to be recognized over the remaining weighted average vesting periods of 0.47 years for outstanding grant was approximately \$57,400.

The weighted average grant date fair value of stock options issued during the years ended December 31, 2019 and 2018 were \$14.49 and \$21.70 per share, respectively.

**Endonovo Therapeutics, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (continued)**

**Endonovo Therapeutics, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (continued)**

**Note 7 – Related Party Transactions**

Two executive officers and one operational manager of the Company have agreed to defer a portion of their compensation until cash flow improves. As of December 31, 2019, and 2018, the balances of their deferred compensation was \$898,475 and \$933,150, which reflects \$650,000 accrual of deferred compensation and \$684,675 cash repayments of deferred compensation during the year ended December 31, 2019 and \$840,000 accrual of deferred compensation, \$829,275 cash repayments during the year ended December 31, 2018.

From time-to-time officers of the Company advance monies to the Company to cover costs. During the years ended December 31, 2019 and 2018, officers and operational manager advanced \$27,130 and \$65,000 of funds to the Company of which \$14,722 and \$87,000 were repaid during the years then ended. Also, during the years ended December 31, 2019 and 2018 accrued interest was repaid in an amount of \$17,000 and \$20,400, respectively. The balance of short-term advances due to one officer and executive of the Company at December 31, 2019 and 2018 was \$5,236 and \$0, respectively and is included in the Company's accounts payable balance as of December 31, 2019.

At December 31, 2019 and 2018, notes payable remain outstanding to one officer and former President of the Company, in the amounts of \$165,000 and \$270,000, respectively. At December 31, 2019 and 2018, accrued interest on these notes payable totaled \$38,389 and \$32,046, respectively, and are included in accrued expenses on the consolidated balance sheets.

**Note 8 - Income taxes**

The Company files income tax returns with the Internal Revenue Service ("IRS") and various state jurisdictions. For jurisdictions in which tax filings are prepared, the Company is subject to income tax examinations by state tax authorities and federal tax authorities for all tax years.

The deferred tax assets are mainly comprised of net loss carryforwards. As of December 31, 2019, the Company had approximately \$25,200,000 of federal net operating loss carryforwards, that it can use to offset a certain amount of taxable income in the future. Some of these federal net operating loss carryforwards begin to expire in 2030. The resulting deferred tax asset is offset by a 100% valuation allowance due to the uncertainty of its realization. Utilization of these net operating losses could be limited under Section 382 of the Internal Revenue Code of 1986, as amended (the "Code"), and similar state laws based on ownership changes and the value of the Company's stock.

A reconciliation of the provision for income tax expense with the expected income tax computed by applying the federal statutory income tax rate to income before provision for income taxes was as follows for the years ended December 31, 2019 and 2018:

	<u>2019</u>	<u>2018</u>
Income tax computed at federal statutory rate	-21.0%	-21.0%
State taxes, net of federal benefit	-7.1%	-7.1%
Non-Deductible expenses	15.0%	7.0%
Change in valuation allowance	13.1%	21.1%
Total	0.0%	0.0%

**Endonovo Therapeutics, Inc. and Subsidiaries**  
**Notes to Consolidated Financial Statements (continued)**

The primary difference between income tax expense attributable to continuing operations and the amount of income tax expense that would result from applying domestic federal statutory rates to income before provision for income taxes relates to the change in the valuation allowance.

The Company has adopted the accounting standards that clarify the accounting for uncertainty in income taxes recognized in an enterprise's financial statements and prescribes a recognition threshold of more likely than not and a measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. In making this assessment, a company must determine whether it is more likely than not that a tax position will be sustained upon examination, based solely on the technical merits of the position and must assume that the tax position will be examined by taxing authorities. Our policy is to include interest and penalties related to unrecognized tax benefits in income tax expense. Interest and penalties totaled \$0 for the years ended December 31, 2019 and 2018.

**Note 9 - Commitments and Contingencies**

*Legal matters*

The Company may become involved in various legal proceedings in the normal course of business.

**Note 10 - Concentrations**

*Sales*

During the year ended December 31, 2019, we had three significant customers which accounted for 7.2%, 7.5% and 23.7% of sales. During the year ended December 31, 2018, we had three significant customers which accounted for 20%, 12% and 11% of sales.

*Supplier*

We also have a single source for our bioelectric medical devices, which account for 100% of our sales. The interruption of products provided by this supplier would adversely affect our business and financial condition unless an alternative source of products could be found.

*Accounts Receivable*

At December 31, 2019, we had three customers which accounted for 37%, 33% and 16% of our accounts receivable balances. At December 31, 2018, we had three customers which accounted for 42%, 30% and 28% of our accounts receivable balances.

**Note 11 - Subsequent Events.**

Subsequent to December 31, 2019, an aggregate of 5,402,619 shares of restricted common stock were issued on the conversion of \$998,066 of principal and \$134,480 of accrued interest pursuant to Variable Notes.

Subsequent to December 31, 2019, the Company issued 2,221,881 shares of common stock pursuant to the conversion of 1,052 Preferred C Shares.

Subsequent to December 31, 2019, the Company received \$50,000 of cash from the issuance of 50 shares of Preferred D stock, which is convertible at the option of the holder.

Subsequent to December 31, 2019, the Company issued four variable debentures for an aggregate amount of \$275,000, with maturity between 6 months to 1 year and carrying coupon of 8%. These debentures are convertible into shares of common stock at the option of the holders.

As a result of these issuances, the total number of common shares outstanding is 8,813,704, Preferred B shares outstanding is 600, Preferred C shares outstanding is 762 and Preferred D shares outstanding is 305.

On January 29, 2020, the Company filed the amended and restated certificate of designation for its Series C Secured Redeemable Preferred Stock. The amendment changed the rights of the Series C by (a) removing the requirement to redeem the Series C, (b) removing the obligation to pay dividends on the Series C, (c) Allowing the holders of shares of Series C to convert the stated value of their shares into common stock of the Company at 75% of the closing price of such common stock on the day prior to the conversion.

The World Health Organization declared the Coronavirus outbreak a pandemic on March 11, 2020 and in the United States various emergency actions have been taken on the National, State and Local levels. The effects of this pandemic on the Company's business are uncertain.

**Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure.**

None.

**Item 9A. Controls and Procedures.**

*Disclosure of controls and procedures.*

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports, filed under the Securities Exchange Act of 1934, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable and not absolute assurance of achieving the desired control objectives. In reaching a reasonable level of assurance, management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. In addition, the design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, a control may become inadequate because of changes in conditions or the degree of compliance with policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

As required by the SEC Rule 13a-15(b), we carried out an evaluation under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of December 31, 2019. Based on the foregoing, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were not effective as of December 31, 2019 at the reasonable assurance level due to the material weaknesses described below.

A material weakness is a control deficiency (within the meaning of the Public Company Accounting Oversight Board (PCAOB) Auditing Standard No. 2) or combination of control deficiencies that result in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. Management has identified the following two material weaknesses which have caused management to conclude that as of December 31, 2019 our disclosure controls and procedures were not effective at the reasonable assurance level:

1. We do not have written documentation of our internal control policies and procedures. Written documentation of key internal controls over financial reporting is a requirement of Section 404 of the Sarbanes-Oxley Act which is applicable to us for the year ended December 31, 2019. Management evaluated the impact of our failure to have written documentation of our internal controls and procedures on our assessment of our disclosure controls and procedures and has concluded that the control deficiency that resulted represented a material weakness.

2. We do not have sufficient segregation of duties within accounting functions, which is a basic internal control. Due to our size and nature, segregation of all conflicting duties may not always be possible and may not be economically feasible. However, to the extent possible, the authorization of transactions, the custody of assets and the recording of transactions should be performed by separate individuals. Management evaluated the impact of our failure to have segregation of duties on our assessment of our disclosure controls and procedures and has concluded that the control deficiency that resulted represented a material weakness.

To address these material weaknesses, management performed additional analyses and other procedures to ensure that the financial statements included herein fairly present, in all material respects, our financial position, results of operations and cash flows for the periods presented.

#### ***Management's Report on Internal Control Over Financial Reporting***

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is defined in Rule 13a-15(f) or 15d-15(f) promulgated under the Exchange Act as a process designed by, or under the supervision of, the issuer's principal executive and principal financial officers and effected by the issuer's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America and includes those policies and procedures that:

- Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the issuer;
- Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the issuer; and
- Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the issuer's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Because of the inherent limitations of internal control, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process. Therefore, it is possible to design into the process safeguards to reduce, though not eliminate, this risk.

As of the end of our most recent fiscal year, management assessed the effectiveness of our internal control over financial reporting based on the criteria for effective internal control over financial reporting established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") and SEC guidance on conducting such assessments. Based on that evaluation, they concluded that as of December 31, 2019, such internal control over financial reporting was not effective. This was due to deficiencies that existed in the design or operation of our internal control over financial reporting that adversely affected our internal controls and that may be considered to be material weaknesses.

The matters involving internal control over financial reporting that our management considered to be material weaknesses under the standards of the Public Company Accounting Oversight Board were: (1) lack of a functioning audit committee due to a lack of a majority of independent members and a lack of a majority of outside directors on our board of directors, resulting in ineffective oversight in the establishment and monitoring of required internal controls and procedures; (2) inadequate segregation of duties consistent with control objectives of having segregation of the initiation of transactions, the recording of transactions and the custody of assets; and (3) lack of communication between management and accounting personnel. The aforementioned material weaknesses were identified by our Chief Executive Officer in connection with the review of our financial statements as of December 31, 2019.

Management believes that the material weaknesses set forth in items (1) and (2) above did not have an effect on our financial results. However, management believes that the lack of a functioning audit committee and the lack of a majority of outside directors on our board of directors results in ineffective oversight in the establishment and monitoring of required internal controls and procedures, which could result in a material misstatement in our financial statements in future periods.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the SEC that permit the Company to provide only the management's report in this annual report.

#### ***Management's Remediation Initiatives***

In an effort to remediate the identified material weaknesses and other deficiencies and enhance our internal controls, we have initiated, or plan to initiate, the following series of measures: we will increase our personnel resources and technical accounting expertise within the accounting function when funds are available to us. First, we will create a position to segregate duties consistent with control objectives of having separate individuals perform (i) the authorization of transactions, (ii) the recording of transactions and (iii) the custody of assets. Second, we will create a senior position to focus on financial reporting and standardizing and documenting our accounting procedures with the goal of increasing the effectiveness of the internal controls in preventing and detecting misstatements of accounting information. Third, we plan to appoint one or more outside directors to our board of directors who shall be appointed to an audit committee resulting in a fully functioning audit committee who will undertake the oversight in the establishment and monitoring of required internal controls and procedures such as reviewing and approving estimates and assumptions made by management when funds are available to us. Lastly, we will improve channels of communication between management and accounting through regularly scheduled monthly meetings. We anticipate the costs of implementing these remediation initiatives will be approximately \$50,000 to \$100,000 a year in increased salaries, legal and accounting expenses.

Management believes that the appointment of one or more outside directors, who shall be appointed to a fully functioning audit committee, will remedy the lack of a functioning audit committee and a lack of a majority of outside directors on our Board.

#### **Changes in internal controls over financial reporting.**

There has been no change in our internal control over financial reporting that occurred during the fiscal quarter covered by this Annual Report on Form 10-K that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

#### **Item 9B. Other Information.**

On April 3, 2013, the Company filed an amendment to the Company's Articles of Incorporation, as amended (the "Articles of Incorporation"), in the form of a Certificate of Designation that authorized the issuance of up to one million (1,000,000) shares of a new series of preferred stock, par value \$0.001 per share, designated "Series AA Super Voting Preferred Stock," for which the board of directors established the rights, preferences and limitations thereof.

The Company's board of directors authorized the Series AA Super Voting Preferred Stock pursuant to the authority given to the board under the Articles of Incorporation, which authorizes the issuance of up to 5,000,000 shares of preferred stock, par value \$0.001 per share, and authorized the board, by resolution, to establish any or all of the unissued shares of preferred stock, not then allocated to any series into one or more series and to fix and determine the designation of each such shares, the number of shares which shall constitute such series and certain preferences, limitations and relative rights of the shares of each series so established.

Each holder of outstanding shares of Series AA Super Voting Preferred Stock shall be entitled to one hundred thousand (100,000) votes for each share of Series AA Super Voting Preferred Stock held on the record date for the determination of stockholders entitled to vote at each meeting of stockholders of the Company.

The summary of the rights, privileges and preferences of the Series AA Super Voting Preferred Stock described above is qualified in its entirety by reference to the Certificate of Designation as filed with the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

#### **Default on Notes**

Due to its limited resources, the Company has not been able to pay certain promissory notes when due. As of December 31, 2019, there are 46 notes with an aggregate principal of \$5,815,545 which are beyond their maturity date. Management believes that the Company may have valid defenses as to some of the promissory notes and will be able to modify some of these notes if requested by the holders to do so and otherwise avoid any default.

### **PART III**

#### **Item 10. Directors, Executive Officers and Corporate Governance.**

The following table sets forth the name and age of officers and director. Our Executive officers are elected annually by our Board of Directors. Our executive officers hold their offices until they resign, are removed by the Board, or his successor is elected and qualified.

<u>Name</u>	<u>Age</u>	<u>Position</u>
Alan Collier	54	Director, Chief Executive Officer, Interim Chief Financial Officer, and Secretary
Michael Mann	62	President

#### **Biographies**

*Alan Collier* has been the Chief Executive Officer, Secretary, and a director of the Company Since March 2012. Mr. Collier has more than twenty (20) years of experience in finance, telecommunications, and consumer products. Over the progression of his career, he has specialized in the development and financing of early stage, high growth, and acquisitive companies (public and private). He has structured, participated in, and completed numerous transactions including mergers and acquisitions, equity and debt placements, capital restructuring, joint venture development, and channel partner procurement. Additionally, Mr. Collier was a Senior Managing Director at Mid-Market Securities, a FINRA-registered Broker-Dealer. He is also the co-founder and a Managing Member of C2 Capital, LLC, which provides management consulting services to companies preparing to go public. Prior to joining Mid-Market Securities, Mr. Collier was a Managing Director of Mosaic Capital and co-managed its Capital Markets Group at Mosaic Capital. He was previously a Vice President at Corporate Capital Group and Managing Director and CEO of Greenbridge Capital Group. He has held numerous board and executive positions throughout his career.

**Michael Mann** has been the President since January 2014. Mr. Mann was the Vice President of Shareholder Relations from March 2012 to January 2014 for the Company and he brings significant related experience in business operations and corporate finance. From 2008 to March 2012, Mr. Mann has served as the President and Chief Executive Officer of Hanover Portfolio Acquisitions, Inc. formerly known as Hanover Asset Management, Inc. Immediately prior thereto, Mr. Mann was the Founder, President, and Chief Executive Officer of U.S. Debt Settlement, Inc., a company listed on the Frankfurt Stock Exchange. Mr. Mann had personally overseen the growth and development of U.S. Debt Settlement since 2003. From January 2002 to July 2003, Mr. Mann was the Chief Executive Officer of Shared Vision Capital, a boutique investment banking firm that assisted emerging companies with early seed capital and bridge loans. From October 1998 through December 2001, Mr. Mann was the Vice President of Investor Relations for JuriSearch.com, an online legal research platform. During his tenure with JuriSearch.com, Mr. Mann was directly responsible for financing for the company's growth and development. In addition, Mr. Mann founded and served as the president of Universal Pacific Communications, a privately-owned telecommunications company. Under his leadership, Universal Pacific developed a fiber optic disaster recovery telecommunications network.

Except as set forth in our discussion below in "Certain Relationships and Related Transactions," none of our directors or executive officers has been involved in any transactions with us or any of our directors, executive officers, affiliates or associates which are required to be disclosed pursuant to the rules and regulations of the Commission.

#### **Code of Ethics**

We do not have a code of ethics that applies to our officers, employees and directors.

#### **Corporate Governance**

The business and affairs of the company are managed under the direction of our board. We have a board consisting of one member. In addition to the contact information in this annual report, each stockholder will be given specific information on how he/she can direct communications to the officers and our director of the corporation. All material communications from stockholders are relayed to our board.

#### **Role in Risk Oversight**

Our board is primarily responsible for overseeing our risk management processes. The board receives and reviews periodic reports from management, auditors, legal counsel, and others, as considered appropriate regarding our company's assessment of risks. The board focuses on the most significant risks facing our company and our company's general risk management strategy, and also ensures that risks undertaken by our company are consistent with the board's appetite for risk. While the board oversees our company's risk management, management is responsible for day-to-day risk management processes. We believe this division of responsibilities is the most effective approach for addressing the risks facing our company and that our board leadership structure supports this approach.

#### **Section 16(a) Beneficial Ownership Reporting Compliance**

We became subject to the reporting requirements of the Securities Exchange Act of 1934, as amended ("34 Act") on June 15, 2015 when we filed a Form 8-A. Our officers and director have made appropriate filings under Section 16(a) of the Exchange Act, although on two occasions, Mr. Mann filed his Form 4 a few days late. These instances involved reporting of open market purchases and did not involve any short swing profits.

#### **Item 11. Executive Compensation.**

The following executives of the Company received compensation in the amounts set forth in the chart below for the fiscal years ended December 31, 2019, and 2018. No other item of compensation was paid to any officer or director of the Company other than reimbursement of expenses.

**Summary Compensation Table**

Name and Principal Position	Fiscal Year	Salary (\$)	Bonus (\$)	Stock Awards (\$)	All Other Compensation (\$)	Total (\$)
Alan Collier, CEO, Interim	2019	\$ 300,000	\$ 15,000	\$ -	\$ -	\$ 315,000
CFO, Secretary and Director	2018	\$ 300,000	\$ -	\$ -	\$ -	\$ 300,000
Michael Mann, V.P., Former	2019	\$ 45,000	\$ -	\$ -	\$ -	\$ 45,000
CEO	2018	\$ 270,000	\$ -	\$ -	\$ -	\$ 270,000

**Outstanding Equity Awards at Fiscal Year-End Table**

Name	Number of Securities Underlying Unexercised Options (#) Exercisable	Number of Securities Underlying Unexercised Options (#) Unexercisable	Option Exercise Price (\$)	Option Expiration Date
Alan Collier, CEO, Interim CFO, Secretary and Director	5,000 10,185	- -	\$ 54.00 21.60	4/17/2027 8/29/2020
Michael Mann, V.P., Former CEO	10,185	-	\$ 21.60	8/29/2020

**Compensation of Directors**

The directors receive no compensation for serving as directors. However, the Company may reimburse its directors for any out-of-pocket cost reasonably incurred to attend a Board meeting.

**Compensation Agreements**

All of the new officers pursuant to the terms of the Share Exchange Agreement dated March 14, 2012 have agreed to accrue and defer payment of their compensation until the Company has generated sufficient financing proceeds or revenue to pay such compensation. Initially, Messrs. Collier and Mann each received compensation of \$10,000 per month which has increased to \$25,000 and \$22,500 per month, respectively.

**Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.**

The following table sets forth certain information regarding our shares of common stock beneficially owned as of April 15, 2020, for (i) each stockholder known to be the beneficial owner of 5% or more of our outstanding shares of common stock, (ii) each named executive officer and director, and (iii) all executive officers and directors as a group. A person is considered to beneficially own any shares: (i) over which such person, directly or indirectly, exercises sole or shared voting or investment power, or (ii) of which such person has the right to acquire beneficial ownership at any time within 60 days through an exercise of stock options or warrants. Unless otherwise indicated, voting and investment power relating to the shares shown in the table for our directors and executive officers is exercised solely by the beneficial owner or shared by the owner and the owner's spouse or children.

For purposes of this table, a person or group of persons is deemed to have “beneficial ownership” of any shares of common stock that such person has the right to acquire within 60 days of April 15, 2020. For purposes of computing the percentage of outstanding shares of our common stock held by each person or group of persons named above, any shares that such person or persons has the right to acquire within 60 days of April 15, 2020 is deemed to be outstanding, but is not deemed to be outstanding for the purpose of computing the percentage ownership of any other person. The inclusion herein of any shares listed as beneficially owned does not constitute an admission of beneficial ownership. Unless otherwise specified, the address of each of the persons set forth below is care of the company at the address of: 6320 Canoga Avenue, 15th Floor Woodland Hills, CA 91367.

Name of Beneficial Owner	Amount of Beneficial Ownership (1)	Percent of Ownership (2)
Alan Collier	40,604	3.41%
Michael Mann	36,974	3.11%
All officers and directors as a group (2 persons)	77,578	6.52%

(1) This includes common shares controlled by Mr. Collier

(2) Based on shares of common stock outstanding as of December 31, 2019

### Item 13. Certain Relationships and Related Transactions, and Director Independence.

On March 31, 2014, the Company issued a promissory note to Michael Mann for a principal amount of \$70,000. The Note carries an interest rate of 14% per annum and a maturity date of September 30, 2017 with interest due monthly. The note was fully paid as of December 31, 2019.

On October 29, 2014, the Company issued a promissory note to Michael Mann for a principal amount of \$50,000. The Note carries an interest rate of 12% per annum and a maturity date of October 29, 2017 with interest due monthly. On September 29, 2019, the maturity date of the promissory note was extended to December 31, 2019. As of December 31, 2019, the Company has a remaining principal balance of \$15,000.

On February 10, 2015, the Company issued a promissory note to Michael Mann for a principal amount of \$50,000. The Note carries an interest rate of 12% per annum and a maturity date of June 4, 2015 with interest due monthly. On September 29, 2019, the maturity date of the promissory note was extended to December 31, 2019. As of December 31, 2019, the Company has a remaining principal balance of \$50,000.

On December 21, 2017, the Company issued a promissory note to Michael Mann for a principal amount of \$100,000. The Note carries an interest rate of 10% per annum and a maturity date of March 22, 2018 with interest due monthly. On September 29, 2019, the maturity date of the promissory note was extended to December 31, 2019. As of December 31, 2019, the Company has a remaining principal balance of \$100,000.

The outstanding notes to Mr. Mann equal \$165,000 at December 31, 2019. In the opinion of management, these notes were on terms no less favorable to the lenders than the Company might have obtained from an unaffiliated party.

### Director Independence

We do not have any independent directors. Because our common stock is not currently listed on a national securities exchange, we have used the definition of “independence” of The NASDAQ Stock Market to make this determination. NASDAQ Listing Rule 5605(a)(2) provides that an “independent director” is a person other than an officer or employee of the company or any other individual having a relationship which, in the opinion of the Company’s Board of Directors, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. The NASDAQ listing rules provide that a director cannot be considered independent if:

- the director is, or at any time during the past three years was, an employee of the company;
- the director or a family member of the director accepted any compensation from the company in excess of \$120,000 during any period of 12 consecutive months within the three years preceding the independence determination (subject to certain exclusions, including, among other things, compensation for board or board committee service);

- a family member of the director is, or at any time during the past three years was, an executive officer of the company;
- the director or a family member of the director is a partner in, controlling stockholder of, or an executive officer of an entity to which the company made, or from which the company received, payments in the current or any of the past three fiscal years that exceed 5% of the recipient ' s consolidated gross revenue for that year or \$200,000, whichever is greater (subject to certain exclusions);
- the director or a family member of the director is employed as an executive officer of an entity where, at any time during the past three years, any of the executive officers of the company served on the compensation committee of such other entity; or
- the director or a family member of the director is a current partner of the company's outside auditor, or at any time during the past three years was a partner or employee of the company's outside auditor, and who worked on the company's audit.

Mr. Alan Collier is not considered independent because he is the Company's Chief Executive Officer.

We do not currently have a separately designated audit, nominating or compensation committee.

#### **Item 14. Principal Accounting Fees and Services.**

##### **Audit Fees**

For the Company's fiscal years ended December 31, 2019 and 2018, we were billed approximately \$87,315 and \$80,790, respectively, for professional services rendered for the audit and review of our financial statements.

##### **Audit Related Fees**

There were no fees for audit related services for the years ended December 31, 2019 and 2018.

##### **Tax Fees**

For the Company's fiscal years ended December 31, 2019 and 2018, we were billed approximately \$9,900 and \$12,865 for professional services rendered for tax compliance, tax advice, and tax planning.

##### **All Other Fees**

The Company did not incur any other fees related to services rendered by our principal accountant for the fiscal years ended December 31, 2019 and 2018.

Effective May 6, 2003, the Securities and Exchange Commission adopted rules that require that before our auditor is engaged by us to render any auditing or permitted non-audit related service, the engagement be:

- approved by our audit committee; or
- entered into pursuant to pre-approval policies and procedures established by the audit committee, provided the policies and procedures are detailed as to the particular service, the audit committee is informed of each service, and such policies and procedures do not include delegation of the audit committee's responsibilities to management.

We do not have an audit committee. Our board of directors pre-approves all services provided by our independent auditors. The pre-approval process has just been implemented in response to the new rules. Therefore, our board of directors does not have records of what percentage of the above fees was pre-approved. However, all of the above services and fees were reviewed and approved by the board of directors either before or after the respective services were rendered.

#### **PART IV**

##### **Item 15. Exhibits, Financial Statement Schedules.**

(a) The following documents are filed as part of this report:

(1) Financial Statements and Report of Independent Registered Public Accounting Firm, which are set forth in the index to Consolidated Financial Statements of this report.

<a href="#">Report of Independent Registered Public Accounting Firm</a>	18
<a href="#">Consolidated Balance Sheets</a>	19
<a href="#">Consolidated Statements of Operations</a>	20
<a href="#">Consolidated Statements of Shareholders' Deficit</a>	21
<a href="#">Consolidated Statements of Cash Flows</a>	22
<a href="#">Notes to Consolidated Financial Statements</a>	23

(2) Financial Statement Schedule: None.

CERTIFICATION  
PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Alan Collier, certify that:

1. I have reviewed this annual report on Form 10-K of Endonovo Therapeutics, Inc.

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) Designed such control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

(d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION PURSUANT TO 18 U.S.C. SECTION 1350 AS ADOPTED

PURSUANT TO SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Annual Report of Endonovo Therapeutics, Inc. (the "Company") on Form 10-K for the year ended December 31, 2019 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), the undersigned Chief Executive Officer and Chief Financial Officer of the Company hereby certifies, pursuant to 18 U.S.C. §1350, as adopted pursuant to §906 of the Sarbanes-Oxley Act of 2002 that based on his knowledge:

1) the Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934, and

2) the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company as of and for the periods covered in the Report.
